26.40µ SD 5.00µ CV 19.00% % Over 30 Microns(µ) 17.40%

Fibre Testing Authority: Yocom-McColl Testing Laboratories

Description:

Snowmass After Dark possesses some of Snowmass Alpacas best roan and grey genetics. After Dark's sire and dam had the honour of being part of the highly selective Snowmass Alpacas elite grey breeding program and After Dark has huge potential to produce superb modern grey alpacas.

After Dark's sire is Snowmass Artic Blue, a grey Champion with Snowmass Accoyocusani and Pperuvian Augusto in his pedigree. Artic Blue is a stunning solid dark grey male with an excellent handle, density and well defined crimp structure to his fleece.

After Dark's dam is Snowmass Sweet Dreams, a superb medium silver grey female and a Champion Grey in her own right. Her pedigree has Snowmass Peruvian Casanova and Peruvian Bueno on her sire's side. Sweet Dreams was considered to be one of Snowmass' top breeding females. Her sire, Snowmass Peruvian Casanova, won the prestigious

Futurity Herdsire honour in 2003. Snowmass Nova, a Casanova son, won the Futurity Dark Herdsire award in 2005.

We are excited to introduce Snowmass After Dark to our herd and to Canada. He has begun his breeding career this summer at Hilltop Oasis Alpacas.
