(Tagit de 7/05/2019 vid åldern av 5 År och 10 Månader gammal)

Ullanalys organisation: Australian Alpaca Fibre Testing

Beskrivning:

Neo is one of those males that we were really excited about as a youngster, and rightly so. It is with males like this that the long time of gestation for an alpaca is almost unbearable! Neo's first crias were born in 2017. His progeny fleeces are all very bright and soft, so we know that he is doing exactly what we want - passing his wonderful fleece characteristics of fineness and handle on to the next generation. As an established Stud Neo is a lovely compact male with excellent substance of bone and still carrying a sublimely fine fleece. And, as Neo is unique in himself, so are his fibre stats, such that his 2nd fleece was even finer than his first! And it is still very fine. Neo was awarded the Judge's Choice at the 2016 National fleece show for his super fine and uniform fleece.
