(taken on 3rd July 2020 at 4 Years of age)

**Fibre Testing Authority:** Australian Alpaca Fibre Testing

### Description:

Willowbrook Alpacas Inferno is a truly exceptional solid dark fawn macho. He is true to type, and stands on a very correct frame, with a deep broad chest and strong bone structure.

With an enviable and proven pedigree, his sire is the Supreme Champion 'Valley Alpacas The Diplomat', and his dam is 'Willowbrook Truffle'; a Brown Colour Champion and daughter of 'Snowmass Sizlin Hot', who comes from a long line of prize winning ancestors and multi champion siblings.

Inferno really is an outstanding male. His fleece is not only incredibly dense, but it is also fine, and exhibits uniformity in both colour and character. It is well organised, and aligned into very bright, tightly crimped staples. He is maintaining this fineness, uniformity, and organisation as he matures. His 4th fleece was only 2 microns higher than his 1st, with an S.D.

of 3.9.

The icing on the cake is that Inferno has the most delightful nature. He is full of personality, and his lovely temperament makes him an absolute charm!

Inferno is well developed, and began successfully working immediately, with a confirmed pregnancy following his first attempt! With strong colour and multi champions on his dam's line, and a Supreme Champion as his sire, we cannot wait to see what this gorgeous male will produce!

**\*UPDATE\*** Inferno is now a proven male, who has clearly stamped his quality on his offspring. All have great conformation, are solid in colour, with ultra-fine, dense and highly organised fleeces. Three first cria fleece statistics: 16.7 (taken at 13 months), (2 solid dark brown) 17.9, 18.0 micron, S.D. 3.9, 4.0, 4.0, C.F. 100%, 99.9% and 99.8% respectively.
