(taken on 11th November 2022 at 1 Year and 4 Months of age)

Fibre Testing Authority: Art of Fibre

Description:

Firstly and surprisingly as it may not be clear from the photos and the front cover of the Year Book, Winsaula Touch of Frost is Neogen tested classic grey, now maturing in his second fleece the grey is more apparent in his blanket. He is an incredibly pale grey so had an interesting show career competing with the best white Suri males the UK has to offer at 2022 and 2023 British Alpaca Society National Show amongst other shows. This young male more than held is own in very competitive classes and as a junior at the BAS National Show in 2022 he received a commendation from the judge Mary-Jo as very worthy of his place in the white line up and went on to receive reserve champion white male at South of England in the same year.

Touch of Frost has an impressive pedigree behind him including Winsaula Joker, the first and only grey Suri to achieve 3 x Supreme Champions and his Dam is the first progeny of Popham Suri Carlos, yet another triple supreme champion

so this guy is packed full of the very best genetics.

Touch of Frost is maturing into his second year with a very obvious strong frame and a wide chest. He is carrying a very fine and dense fleece with coverage from head to toe, great lustre and uniformity which is extra special in a grey fleece.

Winsaula Alpacas have won multiple supreme champtionships and judges choice awards. We are advanced in our colour and grey genotyping and if you would like to discuss this further please contact Paula on 07540 124668, I look forward to hearing from you.

Prizes Won:

National Halter Show 2023
