

Epoch Pegasus

Service Fee (On Farm): £400.00 (excl VAT)

Sire: Summerhaze Appaloosa Regatta

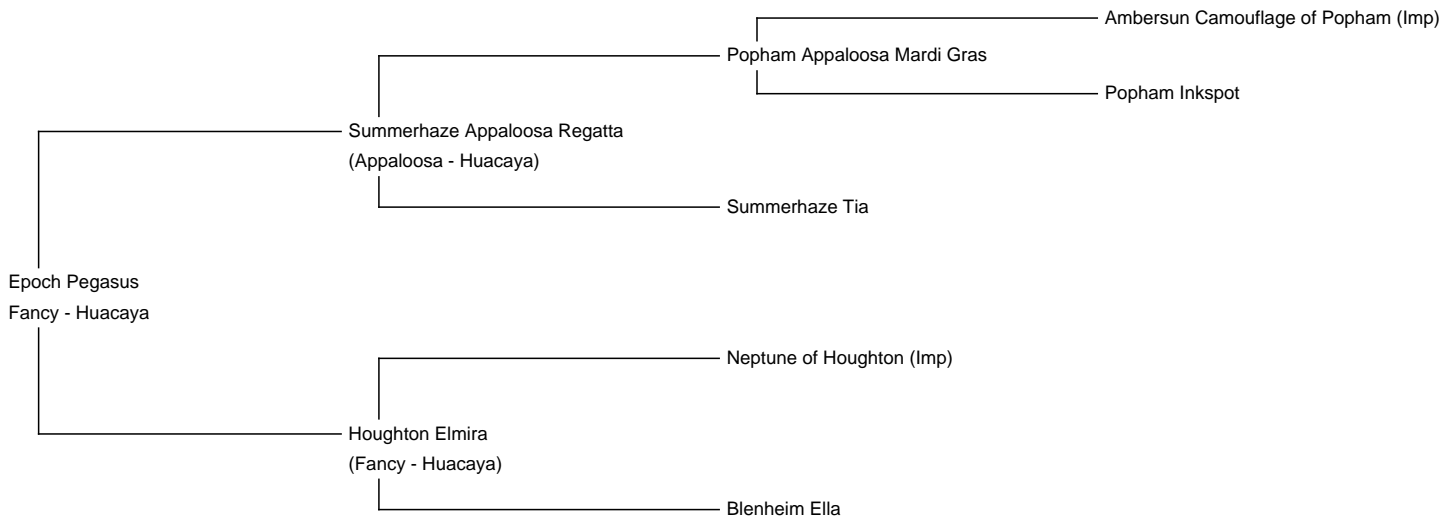

Dam: Houghton Elmira

Breed Type: Huacaya

Colour: Fancy

Registered With: UKBAS43232

Date of Birth: 5th September 2021

Description:

Pegasus is an incredible boy. We believe he has the Appaloosa gene from his Sire Summerhaze Regatta. Pegasus has a large brown patch between his ears which is where the base coat colour expresses itself, with we think a large white spot covering the rest of his body. There are actually also spots within the brown on his head. Pegasus has a fantastic fleece, very dense and fine. His first fleece stats were an amazing Micron of - 14.4 and an SD of 3.3. His Sire Regatta has bred many champion Appaloosas and his Dam has a pattern herself and a fabulous fleece with the Houghton genetics. Her Sire was the multi champion Neptune of Houghton. Elmira, his Dam, has always produced Appaloosas to date when bred to an appy, so there is a very high chance that Pegasus is an appaloosa, but just not expressing it very clearly in his phenotype. This is Pegasus's first year mating, so we are so excited to see what he will produce! Hopefully lots of lovely spotty's!

Pegasus is incredibly easy to handle, very gentle and unassuming. He walks perfectly on a halter and gets on with everyone.
